A Note from our founder:

"Men come seeking answers on why they keep getting into the same types of relationships with similar outcomes, having issues surrounding money or feeling stuck in their lives. They want to fix or change their outside circumstances in order to feel better on the inside. We change that paradigm perspective in this work. We shift our attention and awareness inward. Before a man can know and claim his purpose, he must burn his attachments which preoccupy his mind and his life. As he does, he will pick up the scent of his inner essence - his higher self - to guide and lead him. He then learns to develop and nurture that inner flame. He stops his conquest to feel free from the burdens of his circumstances and finds nourishment through his connection to the Divine. He stops falling in love with the gifts and starts falling in love with the Giver."

— Amir Khalighi - Founder of Embodied Masculine

"The growth, self-awareness, capacity for leadership, and brotherhood that I've cultivated during the MWI program has made a tremendous impact on my life. I used to be constantly swayed by the turbulence of life happening around me, whether it be related to career or relationships. Then, through working with Amir and the MWI program, I learned to ground myself through a more intuitive understanding of nature and a daily practice to sustain my connection to the Divine. I've learned to find my center and to daily reaffirm my commitment to deepening my consciousness.

WHAT DOES THE INITIATION ENTAIL?

In the months leading up to the private initiation retreat, you will undergo comprehensive training aimed at enhancing your physical, emotional, and spiritual well-being. This preparation will equip you for the immersive experience awaiting you. Once at the retreat, we will convene amidst the serene embrace of nature, engaging in a series of practices designed to deepen our connection to ourselves and the world around us, from the break of dawn until dusk. Throughout our time together, we will savor nourishing farm-to-table meals and culminate our journey with a profound initiation ceremony on the final night.

This ceremony is an intensely personal affair, intentionally crafted to forge a profound connection with your innermost self, fostering a sense of unity with the divine essence of existence—be it referred to as the Great Mother, Nature, Higher Self, or any other term resonant with your beliefs. Through this experience, you will find yourself intricately woven into the fabric of the universe, touched on a cellular level by the transcendent power of spiritual communion.

"The MWI retreat in Mazama truly exceeded my expectations. I was taken on a journey of self exploration that my soul was desperately craving.

Amir's ability to hold the space for all of us men was impeccable. His integrity, courage and heart was consistent and prominent. I was pushed in ways I needed to be pushed, the whole time feeling safe and cared for with brotherly love and the support of impeccable men. The practices and attention to every detail opened a space for me to have a breakthrough in my self discovery. Although there are no words that can sufficiently encompass the entirety of my experience, I feel awakened to a powerful connection of truth, self awareness, deep brotherhood and infinite love for our Great Mother. "The MWI program provided me the space to strengthen my masculine container while deepening my connection with my feminine. I reconnected with my heart and my ability to be mindfully present enabling myself to feel more deeply into the freedom and joys of life. I bonded with brothers on our shared journey through the earth, as I saw a piece of myself in each and every one of them. As I continue to search and feel into my greater purpose on this earth, this program and retreat stands paramount as a great stepping stone on the path to clarity. "

THE RETREAT

The MWI Retreat emerges as the pinnacle of an intensive four-month journey of deep self-introspective men's work, intentionally nestled somewhere in the heart of Nature (2025 location TBD within the continental USA). This retreat represents more than a mere gathering; it's the culmination of a profound inward journey, where each participant has delved deep into the layers of their being, confronting and embracing the complexities of their true essence. Set against the backdrop of nature's untouched beauty, the MWI Retreat offers a space where silence speaks volumes, and the natural world becomes a mirror reflecting the inner landscapes of the soul. Here, in the embrace of the wilderness, participants will fall into deep practice, share farm-to-table meals, and find the serenity and rawness needed to fully engage with the introspective work they've embarked upon, turning insights into lived experience and fostering a deep, resonant connection with their own essence and the elemental forces of the natural world. Your lodging and food are covered in the cost of attending this retreat, but your transportation to the retreat location is not.
